

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the personal interview with the Examiner.

During the interview the Examiner indicated that claims 4 and 5 had to be amended to define the device or an arrangement, instead of single means, which is not allowed in accordance with the patent practice.

In connection with this claims 4 and 5 have been amended to define an arrangement in accordance with the present invention.

The Examiner's highly beneficial cooperation during the interview has been gratefully acknowledged.

It is believed that the present application should be allowed and such action is earnestly solicited.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance; he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,
